

Braden Kindred

Washington, DC Area | 240-549-0000 | braden@kindreds.com | linkedin.com/in/kindredbraden | Portfolio

EDUCATION

St. Mary's College of Maryland — St. Mary's, MD

Expected May 2027

B.A., Double Major: Business Administration & Economics · GPA: 3.8

Key Coursework: Applied AI for Business · Microeconomics of Competitiveness · Game Theory
Startup Creation · International Economy

EXPERIENCE

AI & Business Operations Intern

May 2026 – July 2026

Vessel & Co. Yachts · Remote

- Built a five-year pro forma and unit-economics model for a managed vessel, using AI (Claude) to structure cost drivers, revenue assumptions, and operating expenses; the analysis now serves as a reference case for shaping the company's broader business model.
- Designed and built a suite of human-in-the-loop AI agents supporting the company's operations and strategy — a COO agent running the CEO's weekly reporting loop for a team of 5, a Captain agent tracking operational and asset readiness, and a CSO agent that pressure-tests plans against company strategy — each scoped to inform, organize, and recommend while leaving decisions to people.
- Established a consistent design philosophy across all agents (fenced-in scope, no autonomous actions, human-in-the-loop by default), demonstrating responsible AI implementation and practical judgment.

Strategic Operations Intern

May 2025 – Aug 2025

ProsToYou · Boyds, MD

- Identified an operational opportunity and created a new internship role by pitching process improvements directly to company leadership.
- Redesigned the check-in process and reservation rules within the platform the business already used, cutting missed check-ins by 78% in six weeks.
- Launched an HTML landing page with lead-capture forms, standing up a new digital channel for customer acquisition.

Risk Analyst — Student Investment Group (SIG)

Aug 2024 – Present

St. Mary's College of Maryland · St. Mary's, MD

- Conducted risk analysis on an \$850K student-managed portfolio, contributing to a ~36% annual return that outperformed the S&P 500.
- Applied quantitative analysis and financial modeling to support asset allocation and investment strategy.

PROJECTS

Personal Portfolio Website — GitHub Pages

2025

- Built and deployed a professional portfolio site (HTML/CSS, hosted on GitHub Pages) showcasing resume, projects, and background for recruiter access.

LEADERSHIP & ACTIVITIES

Founder, Pickleball Club (2023–Present) · **Member**, NCAA D3 Student-Athlete Advisory Committee (2023–Present)

Student-Athlete, NCAA D3 Men's Soccer Team (2023–Present) · Semi-professional experience

SKILLS
